

ENSF381 – Lab02

Section: L01/L02/L03 *[Keep only one] [They must keep only one, if they made mistake write a note in the feedback section. Don't deduct any mark for wrong value]*

Date: 2024-01-22 *[They must write the correct date. For L01 Jan 22, for L02/L03 Jan 24. If they made mistake write a note in the feedback section. Don't deduct any mark for wrong value]*

Created by:		
First name	Last name	UCID
X	Y	Z
A	B	C

[Check the name. If they made mistake write a note in the feedback section. Don't deduct any mark for wrong name or wrong UCID]

2.3.1

[Check the URL. It must be accessible.

The repository should have the following features:

The repository should be accessible; the students' repositories must have public access.

It should contain both a README file and an MIT License, 3 HTML files, 1 gif file, an images folder and 1 favicon.ico file.

The repository should include a collaborator with the appropriate access permissions.

If it provides all give 10 marks, otherwise deduct 1 mark for each missing and write down in the feedback form.

]

Sample solution:

This is my GitHub repository: <https://github.com/z-arabi/Lab2.git>.

3.3.6

[Sample solution is here. Give 5 marks for picture. Check the images.html file in GitHub, if it has right content then give 5 marks. In total 10 marks.]

It is the final result of the image page:

4.2.2

[Sample solution is here. Give 5 marks for picture. Check the news.html file in GitHub, if it has right content then give 10 marks. In total 15 marks.]

This is the final result of the news page:

Welcome to My HTML Page

- [Section 1](#)
- [Section 2](#)
- [Section 3](#)

Article Title

This is a paragraph in an article section. It demonstrates text formatting, like **bold**, *italic*, and **marked** text.

Here's a quotation:

This is a blockquote, a section that quotes content from another source.

The article section typically contains text, images, and other content that forms an independent part of a document.

List Examples

Ordered List:

1. First item
2. Second item
 1. Second-First item
 2. Second-Second item
 3. Second-Third item
3. Third item

Unordered List:

- Bullet item
 - First-Bullet item
 - Second-Another bullet item
 - Third-Yet another bullet item
- Another bullet item
- Yet another bullet item

Additional Elements

This section includes a variety of additional HTML elements:

Definition Lists:

A list where each item has a term and definition.

HTML:

HyperText Markup Language.

CSS:

Cascading Style Sheets

Tables:

Here is an example of a table:

Monthly Sales Report		
Month	Sales	Expenses
January	\$2000	\$1500
February	\$1800	\$1200
Total	\$5800	\$2700

Images:

Adding an image:

Copy right Zahra Arabi

5.2.3.e

[5 marks]

When accessing the webpage via a file explorer, only the backlink pointing to "index.html" functions as expected. The backlink indicated by "/" does not work and instead redirects to a directory listing page displaying the contents of the "Lab2" directory, including files, subdirectories, sizes, and modification dates.

5.2.3.f

[5 marks, don't be rigid]

Both backlinks working properly. Because in the situation, where a hyperlink operates without explicitly stating the "index.html" file name in the href attribute, is a result of how web servers and web browsers manage default or "index" files. In numerous web server setups, there exists a default filename that is automatically presumed when a URL points to a directory without specifying a particular file. "index.html" stands out as one of the frequently used default filenames for HTML files.

5.3.2

[Check the gif image in repository, if it shows correct linking of pages then give 5 marks]

This is the final result of index.html file:
